The premier showing of **Fran Elson's** fused glass installation:

# **"BROKEN"...**

Fran Elson's multi-media Holocaust memorial project honors her parents Joseph and Rose Kierschenbaum Horowitz and their families.

Fran will talk about her artist's concept behind the project and share her mother Rose's 57 minute film produced by the Shoah Foundation Oral History Project.

A wine and cheese reception will follow Fran's talk and the film.

Guests will have an opportunity to view her remarkable fused glass panels.

"My hope is that though sharing this project, I can share the legacy of my parents and express the fragility of our freedoms through the fragility and great strength of fused glass!"

Frances Elson, fused glass artist
